Verney-Carron welcomes you in a New Era ...

The SPEEDLINE is neither a bolt action rifle, nor a semi-automatic rifle, nor a linear reloading rifle. It is a revolutionary rifle!

It's up to you to work the lever!

STOP & GO System

The patented Stop&Go® system allows an unequalled rate of fire on a manual loading rifle, by locking the bolt to the rear after automatic ejection of the fired shells. The reloading is achieved by a light pressure on the lever.
